

The Third Talk®

A Critical and Necessary Conversation Made Easy

The exposure of our young people to explicit adult content is a health challenge we are just beginning to understand. John Van Arnam has been protecting children from viewing this content for over 20 years. He brings his psychology education, counseling and years of speaking and talking with parents and their kids to families across the United States in a family-friendly atmosphere.

We encourage parents to bring their kids to this important discussion. We also encourage caregivers and families from other charter schools to attend.

Pizza and snacks will be available.

The Third Talk Presentation will be held on April 23, 2024, 6:00-7:30 pm at ArtSpace Charter School in Asheville, North Carolina.
